Dear Parents and Carers

Once again thank you for your support yesterday. There are still logistical amends that need to be made, particularly at pick up time for those collecting siblings and to ensure greater safety at Ellingham Road entrance. We recognise that it must have been a frustratingly long wait and at points more crowded than we would have liked. Apologies, we are working hard to get this right for you.

We have put systems in place to improve the organisation around collecting your children in today. All teachers have been provided with a more detailed list of children who leave from a different gate or who attend Explorers, and we will have staff outside of the school doors to catch them as they leave the building so that they can arrive at the correct gate with their siblings.

At the Ellingham Road gate, we will move the queues inside of the double gates along the drive so that children can be dropped off and collected at the bottom of the drive and families leave via the path. Please arrive at your allotted time to avoid crowding and use the pavement to queue.

At both gates, we would recommend the wearing of masks as the nature of the space makes it difficult to sustain social distancing.

We will keep all of this under review during this week and make changes as we identify pinch points.

Yours sincerely,

Mrs L Keogh  
Headteacher
