### **Home Learning Survey - Please complete**

Dear Parents and Carers,

From the latest government and the news reports, it seems inevitable that this lockdown will extend beyond the half-term holiday, possibly until Easter. While we have been ambitious from the start about our children's home learning, we do recognise that our approach may need adjustment - it's a marathon rather than a sprint. We have devised a survey to capture your views on home learning so that we can meet the guidelines set out by the government, cater for the children's learning needs and recognise the constraints faced by parents and carers at home.

From the beginning of this latest lockdown we have been committed to providing the best possible home learning experience for your children in order for them to continue to make progress and feel connected to school and their friends. Clearly this has involved tremendous effort from families and teachers to master technology and a whole new way of working. Each week, teachers share best practice in school to build their skills, confidence and challenge themselves to engage all of their children in lessons.

We recognise that balancing working and learning from home requires time, patience and commitment from families so in order to get the home learning balance right please click on the link below to complete the Home Learning Survey.
